

BSc PSYCHOLOGY

UG- 3 Year

Unique Features of the Programme

The BSc Psychology programme seeks to establish robust foundations for the application of psychological principles to personal, social, and organizational issues, while cultivating analytical skills essential in the field of social science. This course is intricately designed to provide a pathway to diverse specializations in higher studies, seamlessly integrating with a broad spectrum of disciplines.

Highlights of the Curriculum

The programme emphasizes providing students with fundamental psychological concepts across various domains, including General Psychology, Developmental Psychology, Biopsychology, Abnormal Psychology, Social Psychology, and Industrial and Organizational Psychology. Additionally, it offers specialized courses like Forensic Psychology, Gender Psychology, Consumer Behaviour, Yoga and Indian Psychology. The curriculum also places a significant emphasis on statistics and research, incorporating group projects and internships to enhance practical learning experiences.

Career Opportunities (Higher Studies)

Comprehensive support is provided to students preparing for higher studies entrance exams, with specialized assistance tailored for GATE exams in psychology and Junior Research Assistants.

Certificate courses/ Add On/ JOC

Collaborating through Memoranda of Understanding (MOUs) with reputable institutions, our goal is to facilitate a Job Oriented Course in Counselling and Psychometry. This partnership is strategically crafted to align educational expertise with industry standards, ensuring students acquire practical skills and recognized certifications in the dynamically evolving sphere of counselling.

Research

Students are encouraged to create and publish research papers while adhering to ethical standards. Our students actively engage in numerous national and international conferences, where they showcase their research, earning recognition for their contributions.

Expertise of the Faculty members

Our faculty members possess extensive expertise in Clinical, Counselling, and Industrial Psychology. Their steadfast dedication to staying updated with industry standards guarantees that students receive a thorough and dynamic learning experience.

Infrastructure : Library, Labs and Classrooms

Library, Labs and Classrooms: Well-equipped classrooms with audio-visual aids for effective learning, experimental labs for our students with ample number of psychometric apparatus, scales and comfortable seating arrangements to perform the psychological experiments and research. We also have psychometry labs with advanced software technology equipped with high-speed processors, ample memory, and relevant softwares for statistical analysis tools (SPSS, R, AMOS, NVivo) etc.

Key Benefits

Students acquire significant practical experience in counselling, public speaking, people management, and research paper presentations with opportunities for publications. Internships, spanning 30 days, are available in both clinical and industrial settings. Additionally, Pearson India offers a certificate programme focusing on career assessment and guidance.

Student Life

Participation in club activities, extracurricular pursuits, and community service is a cornerstone of academic life, fostering the comprehensive development of students' personalities and the refinement of their counselling skills. These endeavors not only provide avenues for relaxation but also serve as valuable opportunities for collaborative skill-sharing and meaningful learning experiences.

International Study Abroad Opportunities

Students acquire practical insights by participating in internships at esteemed institutions, focusing on Clinical, Counselling, and Industrial Psychology. Additionally, they have the opportunity to enhance their academic knowledge through engagement in study abroad programmes.
